8. ARTICLE XV
WETLANDS CONSERVATION DISTRICT ORDINANCE

A. **Purpose and Intent**

The purpose of this article is to protect the public health, safety and general welfare by controlling and guiding the use of land areas which have been found to be subjected to high water tables for extended periods of time.

It is intended that this article shall:

1. Prevent the development of structures and land uses on naturally occurring wetlands which will contribute to pollution of surface and ground water by sewage or toxic substances.
2. Prevent the destruction of, or significant changes to natural wetlands which provide flood protection.
3. Protect unique and unusual natural areas.
4. Protect wildlife habitats and maintain ecological balances.
5. Protect potential water supplies and existing aquifers (water-bearing stratum) and aquifer recharge areas.
6. Prevent expenditure of municipal funds for the purposes of providing and / or maintaining essential services and utilities which might be required as a result of misuse or abuse of wetlands.

B. Wetlands Defined

Wetlands are areas where a significant part of the vegetational community, and soil and land types consist of, but do not necessarily include all, of the following:

1. Swamps are areas where the water table is at or near the ground surface for a significant part of the year. The vegetational community consists mostly of trees and woody shrubs, such as:

Alders
Arrow-wood
Atlantic White Cedar
Black Ash
Black Gum
Black Spruce
Buttonbush
Common Elder
High-bush Blueberry
Marsh Rose
Poison Sumac
Red Maple
Rhodora
Sphagnum Moss
Spicebush
Sweet Pepperbush
Tamarack (Larch)
Willows
Winterberry

2. Marshes are treeless wetlands dominated by soft-stemmed herbaceous plants. The surface of the marsh is covered with water year around, though seasonal fluctuations in water depth are expected. Marshes range from the wet meadows variety to deep marshes which can be covered with several feet of water. The vegetational community is made up of some or all of the following:

Arums
Bladder Worts
Bur-reeds
Cat-tails
Duckweeds
Eelgrass
Frog's-bits
Horsetails
Hydrophylus Grasses
Leatherleaf
Pickerel Weeds
Rushes
Sedges, including Bulrushes, Cotton-grasses and Wool-grasses
Smartweeds
Sweet Gale
Water-lillies
Water Milfoil

3. Bogs consist of peat or muck deposits of significant depths and are characterized by a distinct group of trees and plants which are adapted to the bog's highly acidic conditions. The water in a bog is practically devoid of oxygen and nutrients. Bogs usually develop in undrained glacial depressions. Typical plants are:

Atlantic White Cedar
Black Spruce
Bladder Worts
Bogbean or Buckbean
Bog-laurel
Bog-rosemary
Cotton Grass
High-bush Blueberry
Leatherleaf
Pale Laurel
Pitcher-plants
Rhodora
Sedges
Sheep Laurel
Sphagnum Moss
Sundews
Sweet Gale

4. Soil series and land types commonly associated with wetlands, as described by the Soil Survey of Carroll County, New Hampshire, dated December, 1977, include the following "very poorly drained":

Alluvial land, wet (AW)
Chocorua Mucky Peat (CM)
Fresh Water Marsh (FA)
Greenwood Mucky Peat (GW)
"Poorly drained" soils include:
Leicester series (LDB, LfA & LfB)
Limerick (Lk)
Limerick variant (lm)
Naumburg (NaB)
Raynham Variant (Ra)
Ridgebury series (RgB, RIA & RIB)
Walpole
Muck and Peat (MU)
Ossipee Mucky Peat (OT)
Whitman very stony loam (Wc)

C. District Boundaries

1. Wetlands Conservation District Defined

The Wetlands Conservation District is defined as those areas delineated as very poorly and poorly drained soils by the U.S. Department of Agriculture, Soil Conservation Service, in the Soil Survey of Carroll County, New Hampshire, dated December, 1977. The Wetlands Conservation District also includes those areas such as swamps, marshes and bogs that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support

a prevalance of vegetation adapted for life in saturated soil conditions.

2. Establishment of a District

The limits of the Wetlands Conservation District are hereby determined to be areas of one acre or more in size, or of any size if contiguous to surface waters such as lakes, ponds and streams, subjected to high water tables for extended periods of time and includes, but are not necessarily limited to, all such areas delineated as wetlands on the current Tuftonboro Wetlands Map.

3. Wetlands Incorrectly Delineated

Where it is determined that an area has been incorrectly delineated as a wetland, or that an area not so designated was subsequently found to meet the criteria for wetlands designation, the Planning Board shall determine whether the regulations contained herein have application.

The Planning Board shall make their judgement under this section only upon the determination by qualified soils scientist (s) and/or plants scientist (s) on the basis of additional on-site investigation or other suitable research that the information contained on the Wetlands Conservation Map is incorrect. This evidence shall be acceptable only when presented in written form by said scientist (s) to the Planning Board. Any necessary soil testing procedures shall be conducted at the expense of the landowner or developer.

D. Relation to Other Districts

Where the Wetlands Conservation District is superimposed over another zoning district, the more restrictive regulations shall apply.

E. Permitted Uses

1. Permitted uses are those which will not require the erection or construction of any structures or buildings, will not alter the natural surface configuration by the addition of fill or by dredging, and uses that otherwise are permitted by the zoning ordinance. Such uses may include the following:

a. Forestry-tree farming, using best management practices in order to protect streams from damage and to prevent sedimentation;

b. Cultivation and harvesting of crops according to recognized soil conservation practices, including the protection of wetlands from pollution caused by fertilizers, pesticides and herbicides used in such cultivation;

c. wildlife refuges;

d. parks and recreation uses consistent with the purpose and intent of this article;

e. conservation areas and nature trails;

f. open spaces as permitted or required by the subdivision regulations or the zoning ordinance.

F. Special Exceptions

Special exceptions may be granted by the Board of Adjustment, after proper public notice and public hearing, for undertaking the following uses in the Wetlands Conservation District when the application has

been referred to the Planning Board, the Conservation Commission, and to the Health Officer for review and comment at least thirty (30) days prior to the hearing:

1. Streets, roads and other access ways and utility right-of-way easements, including power lines and pipe lines, if essential to the productive use of land not so zoned and if so located and constructed as to minimize any detrimental impact of such uses upon the wetlands.

2. Water impoundments.

3. The undertaking of a use not otherwise permitted in the Wetlands Conservation District, if it can be shown that such proposed use is not in conflict with any and all of the purposes and intentions listed in Section A of this article.

G. **Special Provisions**

1. No septic tank or leach field may be constructed or enlarged closer than one hundred (100) feet to any wetland.

2. No part of a wetland may be considered as part of the minimum size requirement of any lot.

3. All land included in the Wetlands Conservation District shall be appraised for tax purposes at its full and true value in money, based on its market value as undevelopable land required to remain in open space.

4. If any section, provision, portion, clause or phrase of these regulations shall be held to be invalid or unconstitutional by any court or competent authority, such holding shall not affect, impair or invalidate any other section, clause, provision, portion or phrase of these regulations.

Given under our hands and seal, this 25th day of February, in the year of our Lord nineteen hundred and eighty.

ARTICLE 2. To see if the Town will vote to discontinue as of May 1, 1979, the practice of snowplowing private driveways. For purposes of this article, the word "driveway" is used in its customary sense, as a private way providing access to a house, garage, or other building, and is not intended to include town or private roads to which such driveways have access. A number of private driveways (a relative few) are currently plowed by the Town at Town expense on a low priority basis. In the interest of equity and benefit to the majority of the taxpayers, it is desired by the Selectmen and the Road Agent to apply the resources required for this activity to the maintenance of town roads during the winter season.

The motion was made by Chester Fernald and seconded by Walter Smith to adopt article two as read. Voice vote in the affirmative.

ARTICLE 3. To see if the Town will vote to require as application to, and approval by, the Selectmen and the Road Agent prior to November 1 of each year for the snowplowing of private roads. In reviewing such applications, consideration will be given to, among other factors, (1) the extent to which the road conforms to town standards, (2) the condition of the road, (3) the quality of normal maintenance, (4) the existence of obstacles to plowing, (5) adequacy of turn-around space, (6) extent of usage by year-round residents on the road and the general public, etc.

The motion was made by Walter Smith and seconded by Brad Hunter, Jr. to adopt article three as read. Voice vote in the affirmative.

ARTICLE 4. To see if the Town will vote to formally and officially classify as Class VI roads all town roads currently considered as such by the State of New Hampshire and the Town of Tuftonboro. Class VI roads (unmaintained highways) consist of all existing public ways, other than those in the first five classes as defined by the State of New Hampshire, including highways discontinued as open highways, highways closed subject to gates and bars, and highways not maintained in suitable condition for travel for five years or more. Such roads in the Town include, but are not limited to, the following: Sandy Knoll Road, North Line Road, Bassett Road and Piper Road.

The motion was made by Thaddeus Coleman and seconded by Kenneth Craigue to adopt article four as read. Voice vote in the affirmative.

ARTICLE 5. To see if the Town will vote to discontinue the publication in the Town Report every three years of a complete listing of taxpayers' names, descriptions of property owned, and assessed valuations in order to eliminate the cost of this service. There would be no decrease in the information available to the taxpayers, since the recently-completed Town Map and full tax information are available to the public at the Town House during the Selectmen's office hours and at other times by appointment.

The motion was made by Gordon Thayer and seconded by Daniel Lewis to adopt article five as read. Voice vote in the negative and Article five did not pass.

ARTICLE 6. To see if the Town wishes to exempt itself, as provided by RSA 55:9-c, from the provisions of the law granting the Town Clerk authority to accept applications for additions to the Checklist as provided in RSA 55:9-a and 55:9-b. This item is on the Warrant by voter petition.

The motion was made by Elizabeth Coleman and seconded by Marjorie Stickle to adopt Article six as read. Voice vote in the negative and Article six did not pass.

ARTICLE 7: To see if the Town will vote to raise and appropriate the sum of Seven Hundred Sixty-Two and 67 / 100 Dollars ($762.67) to assist Carroll County Mental Health Service, Inc. This item is on the Warrant by voter petition and is approved by the Budget Committee.

Moved by Brad Hunter, Jr. and seconded by Daniel Lewis to adopt Article seven as read. Voice vote in the affirmative.

ARTICLE 8. To see if the Town will vote to raise and appropriate the sum of Eight Hundred Twenty-Five and 52 / 100 Dollars ($825.52) for town road aid as approved by the Budget Committee. The State, in turn, will contribute Five Thousand Five Hundred Three and 50 / 100 Dollars ($5,503.50).

The motion was made by Brad Hunter, Jr. to accept Article eight as read. Seconded by Marjorie Stickle. Voice vote in the affirmative.

ARTICLE 9. To see if the Town will vote to raise and appropriate the sum of Ten Thousand Four Hundred Eighty-eight and 01/100 Dollars ($10,488.01) as approved by the Budget Committee, and authorize its withdrawal from state highway subsidy (Chapter 241, Section 14 of the Revised Statutes Annotated, as amended). This money is to be applied to maintenance, construction and reconstruction of Class V highways in the Town.

The motion was made by Marjorie Stickle and seconded by John Redmond to accept Article nine as read. Voice vote in the affirmative.

ARTICLE 10. REPORT OF THE TUFTONBORO FIRE DEPARTMENT

The Tuftonboro Fire Department has responded to an increased number of chimney fires this past year due to the many people burning wood.

The department would like to emphasize the importance of safe and proper installation of wood stoves. Also a through cleaning and inspection of chimneys at least once a year.

In order to keep pace with the increased growth of the town, the department is working hard to develop a new and more efficient training program which should be beneficial to all.

PLANNING BOARD REPORT

In 1979 the Planning Board had 38 meetings plus several field trips to view proposed developments. These meetings included two public hearings on the Master Plan and the Wetlands Conservation District. The majority of our meetings were workshop sessions devoted to master planning. In addition to attending meetings, Board members individually spent many hours of personal time gathering materials and consulting with lawyers, regional planners and citizens.

1979 TUFTONBORO CONSERVATION COMMISSION REPORT

1979 was a year of reorganization for the Commission after several years of relative inactivity. The Board of Selectmen appointed three new members to the Commission, giving us a total of five members. Our major project for the year was to draft a Wetlands Conservation District Ordinance for the Planning Board to present to the town for vote on Town Meeting Day. A Wetlands Map was also drawn up for use in conjunction with the proposed ordinance.

A total of eight New Hampshire Dredge and Fill Permits were investigated by the Commission, either before the work proceeded, to check the accuracy of the permit request, and/or after completion of the work, to insure its compliance with the terms of the permit. (Dredge and Fill Permits are issued by the New Hampshire Wetlands Board for repair and construction of docks and for other shoreline improvements). In addition to this, a violations of The Rules and Regulations of the Wetlands Board was discovered and investigated by the Commission. The property owner involved was most cooperative and corrected the violation even before receiving an order to do so from the Wetlands Board.

As in years past, in keeping with our belief that an understanding of conservation should begin at a young age, the Commission subscribed to The National Wildlife Federation's children's publication, "Ranger Rick Magazine", for all members of the fourth grade. A teacher's guide is supplied with this subscription for instructional purposes.

In closing we would like to remind you that we are your Conservation Commission, so please communicate with us.

ROAD AGENT'S REPORT

We finished asphalting Sodom Road in 1979 and plan to seal it in 1980. Further work was done on Union Wharf Road using T.R.A. and Highway Subsidy funds. The surface will be paved in 1980. We cut open and graded a new road from Butternut Lane in Tuftonboro Colony to the Town House using Additional Highway Subsidy funds. We spent considerably more time than usual trimming and cleaning ditches due to the lack of snow this winter.

AUDITOR'S CERTIFICATE

We have examined the accounts of the various town officers as of December 31, 1979. Our examination was made in accordance with the auditing standards as prescribed by the New Hampshire Department of Revenue Administration, and accordingly included such test of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion the statement herein presents fairly the results of the operation of the Town Officers for the year 1979.

REPORT OF THE TRUSTEE OF TRUST FUNDS 1979

This past year with the constant attention given to the maintenance care has shown great improvements on most of the cemeteries.

There are many things yet to be done and each year our program will reflect other improvements.

The merging of the Town House Cemetery Association late last year reflects a much more complete program than was ever realized before.

The summary in this report reflects a very encouraging picture for the town. Should townspeople be interested in the detailed break down, these sheets are available with both the Selectmen and Trustees.

The racks ordered last year were delivered in Feb. 1979 and are now ready for use in Tomb. There is now space in the Tomb for 6 bodies. It has been many years since townspeople had the opportunity to be rendered this service.

The addition of a Cemetery annex, I believe, makes the first time the town has had cemetery lots for sale. This area was surveyed, marked, mapped and recorded in Ossipee. The result, we came up with 137 plots for town residents.

With the increase in costs over the estimate and the necessity to complete this area, the Selectmen suggested we complete this area and have the entire space for use. This has been done and to date, we have recovered a substantial portion of the investment.

The area leading from the road to the cemetery we did not start this year because of increase in costs and the drilling of a well at Town House and hoping this coming year, we will have water for the cemetery controlled from the Town House.

All monies left over have been turned back to the treasurer and there are no outstanding debts or carry over amounts.

We still have perpetual care amounts coming in which help a great deal and there are numerous areas in the older part that could be endowed and the Trustees are available to talk with these people at most any time.

Our program for this coming year for improvements will be quite moderate as we are conscious of cost factors.
